

Innovative gas and gas supply solutions for metal fabrication

Optimum welding and cutting quality, productivity and cost effectiveness

Fabrication applications

- Cutting
 - Laser cutting
 - Oxy-fuel cutting
 - Plasma cutting
- Welding
 - Laser welding
 - MIG/MAG welding
 - Oxy-acetylene welding
 - Plasma arc welding
 - TIG welding
- Gas control equipment
 - Industrial applications
 - Specialty gases applications
- Plasma spraying
- Others
 - Gouging, laser marking and surface treatment

Air Products' innovations

- Linx® shielding gases
- High-volume 200 bar cylinder
- BIP® technology
- Liquid nitrogen (LIN) cooling
- CryoEase® Service

In today's competitive business environment, it is crucial that quality and productivity are combined to give your business the edge. Air Products' gases and gas supply solutions are proven to provide great welding and cutting quality and increase productivity, for example, our Inolinx® TIG gas can achieve up to 30% speed increase over single gas or binary mixture shielding gases.

Our solutions include the full-range of gases, gas mixtures and supply solutions from compressed cylinder gases to large volume gas supply in microbulk and liquid bulk tanks.

Benefits

- High safety standards for our products and packaging
- Faster welding and cutting to raise productivity
- Guaranteed purity and quality traceability to ensure cutting and welding quality
- Continuous and convenient gas flow for uninterrupted production
- Minimal ozone generation to improve the work environment

Technical expertise and comprehensive services to meet your needs

- An experienced team of engineers to provide optimal technical advice
- A wide range of professional standard and tailor-made training courses
- Comprehensive analytical and audit services from leak-detection, gas analysis to process review
- Convenient telemetry systems for automatic replenishment of your tank
- Equipment which meets the high standards in safety and productivity from complete turnkey installations to simple cylinder connectors

Flexible supply options to suit the needs of different volumes and space

Small volume

Large volume

Cylinder

Cylinder pack

CryoEase Service

Liquid bulk
